Bar Code Pro File Converter

Revised: 11-14-97

This utility will convert Bar Code Pro files created with versions **2.09 through 3.08** to the 3.5 file format. Users of 3.5 will then be able to open older files created with older versions.

PLEASE NOTE: This file converter will not work with files created with versions older than 2.09.

How to update a Bar Code Pro graphic:

- 1) Once you have downloaded and Unstuffed this file, Double-click the **Bar Code Pro® 3.5 Converter** to launch it.
- 2) Go to **File** and select **Open Bar Code Pro Graphic**.
- 3) Locate and select the Bar Code Pro graphic you want to convert, then click Open. Than save your bar code to the appropriate folder.

If you experience problems using this file converter, please contact SNX technical support at:
